The description should be written for general public and should include the project goal, description of research, reasons for attempting a particular research topic and substantial results expected.

Should the project qualify for funding, the abstract for the general public will be published on the National Science Centre's and Ośrodek Przetwarzania Informacji (OPI)'s websites alongside the information on the call's results.

## INTERNATIONAL COOPERATION

To be filled out in English.

International cooperation means that research tasks are carried out together with investigators from foreign entities.

The following are not considered international cooperation:

a) participation in international conferences;

b) dissemination of information on the project abroad;

c) implementation of research tasks by a Polish research team abroad without the participation of investigators from foreign entities;

d) cooperation with foreign researchers employed by Polish entities.
